The Little **Benford ME130**

It makes the competition look small

The Benford ME 130 is the small hydraulically operated excavator that's big on benefits, for within its compact dimensions are all the engineering features to make your work more productive and profitable.

Big on performance

ME130 has a bucket tear out force of 1.75 tonne, digs down to 1.9m and has a load-over height of 1.73m.

Big on mobility

A unique system* of pin connected tow bar, wheels and stabiliser feet allows ME130 to be changed in moments from excavator to road going trailer suitable for towing behind a pick-up, van or car.

*Patent applied for

The Little Benford ME130 Micro Excavator

Big on versatility

Dig drainage trenches, cable or pipe channels, foundations, graves and footings. Add from a range of accessories for even greater versatility.

Big on manoeuvrability

On site and in the digging position, ME130 can be moved under its own power. And fitted with narrow wheels it can pass through an opening of just 76cm (30").

Big on stability

Stabilising legs and spade anchors provide a firm base at all times. When fitted with the straight leg attachment ME130 can dig close up to a wall and still retain perfect balance.

Big on reliability

ME130 is fitted with grease points and with all movable parts fully bushed you can be sure of rugged, reliable performance.

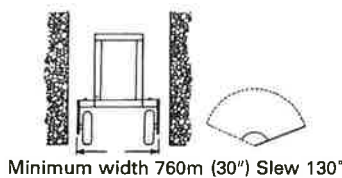

Specification

Engine: Robin 5hp, 4-stroke.

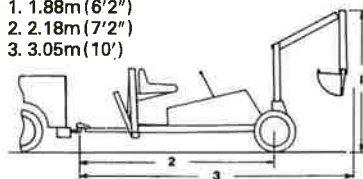

Hydraulic: High quality gear pump.
5 lever control block with pre-set relief valve.
Bucket tear-out 1.75 tonne.
5 interchangeable 305mm (12") stroke rams.

Main Chassis: Heavy duty box section.
Buckets: A range of buckets, in addition to the standard 18" bucket (as supplied) are available.

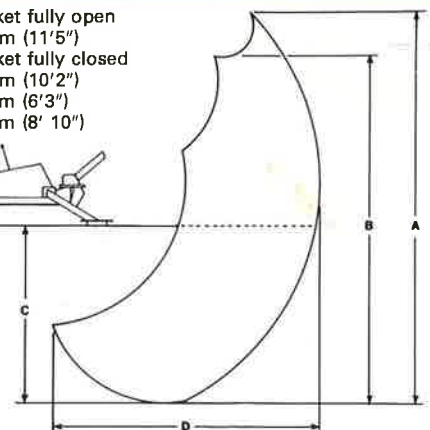

Load-over height: 1.73m (5' 8")
Weight: 520kg (1148lb).

1. 1.88m (6'2")
2. 2.18m (7'2")
3. 3.05m (10')

- A. Bucket fully open
3.48m (11'5")
- B. Bucket fully closed
3.10m (10'2")
- C. 1.91m (6'3")
- D. 2.69m (8' 10")
